Professional Profile

Advanced Information Systems Engineering student (UNS, 2026) with a strong passion for IT support. I started my IT journey as a hardware and software technician, providing local client support and volunteering. I have hands-on experience in diagnostics, initial setups, and preventive/corrective maintenance. I complement this with a solid background in infrastructure and operating systems (Linux/Windows), allowing me to resolve operational incidents with agility. Looking to contribute my technical skills in an IT Support role.

Education

National University of the South **Expected Graduation: 2026**
Information Systems Engineering (94 % completed) *Bahía Blanca, Buenos Aires, Argentina*

Experience

Backend Developer — Data Warehousing **August 2025 – December 2025**
RocketBeet *Bahía Blanca, Buenos Aires, Argentina*

- Designed and shipped an end-to-end ETL pipeline on GCP Cloud Run + Docker (Python), eliminating 100 % of manual metric ingestion work for the product team.
- Automated ingestion and transformation of structured data, replacing recurring manual reports and enabling real-time data availability.

Fullstack Developer — Professional Practice **May 2025 – August 2025**
Plataforma Sustentabilidad Integral *Bahía Blanca, Buenos Aires, Argentina*

- Refactored the interactive React Native map module by decoupling UI from business logic, improving rendering performance and enabling future extensions without technical debt.
- Built the end-to-end QR code check-in/checkout system (Expo, REST API, SQL), streamlining user access to shared bicycle stations.
- Delivered the passenger-driver booking module, closing the final sprint and enabling the product's production launch.

Teacher — Digital Literacy **2023**
UPAMI UNS *Bahía Blanca, Buenos Aires, Argentina*

- Designed and delivered technology workshops for senior citizens, enabling 20+ participants to independently use mobile apps.

Projects

National University of the South Choir Website | *PHP, WordPress (coro.uns.edu.ar)* **2026**

- Redesigned and modernized the institutional web portal using PHP/WordPress, refreshing the digital identity of a 50+ member organization.

Certifications

Introduction to Quantum Software Development **August 2024**
III Latin American School of Informatics (ELI) *Bahía Blanca, Buenos Aires*

Computer Systems Installer and Support **2019**
Professional Training Center (CFP) 401 *Bahía Blanca, Buenos Aires*

Leadership and Activities

Volunteer - PC Repair and Maintenance **2021**
General Secretariat of Culture and University Extension *Bahía Blanca, Buenos Aires*

- Performed hardware and software maintenance tasks, successfully refurbishing computers for donation to community institutions.
